In the course of a discussion with me regarding this re-alignment of positions in WHD from the O & M standpoint, Mr. [redacted] mentioned that he had no objection to the transfer of the positions but did not wish any change in grades to be made at this time, feeling that any such re-classification can be handled when a new T/O for the entire Division is submitted in the near future as directed by the DB/P.

This information is passed along as an item of probable interest to you.
